NEW Fall 2014 Course
LIS 5970 Community-Based Healthcare in the Information Society

Thursdays 4:30 pm-7:10 pm with video to Norman and Tulsa

Interested in becoming a Medical Librarian?

The health sciences librarian promotes access to health information for all and creates and maintains conditions of freedom of inquiry, thought, and expression that facilitate informed health care decisions.

Do you like:

- Learning about health information?
- Having a close relationship with your patrons?

Do you want a career where:

- Residents or physicians thank you for information that leads to evidence-based patient care?
- Policies are implemented or changed due to information from the library?
- You can help Oklahoma improve its 44th place overall Health Ranking?
- You contribute a literature search for a resident’s research paper that gets published?

If you said “yes” to any of these questions, you should consider becoming a medical librarian!

Your Rx for becoming a Medical Librarian:

1. Check out other SLIS courses:
   - LIS 5133 Biomedical Bibliography & Reference Materials
   - LIS 5163 Biomedical Databases
   - LIS 5970 Health Informatics for Information Professionals
   - LIS 5473 Documents & Records Management
   - LIS 5823 Internship in the health field

2. Brush up on your medical terminology

3. Get involved with the Association of Health Information Professionals

You are on your way!!!
