A portfolio is required by the State of Oklahoma for all students in teacher preparation programs. MLIS students in the SLM program may take the comprehensive exam for end-of-program assessment and complete a portfolio which is evaluated by state standards but not defended before a committee for end-of-program assessment. A portfolio defended for end-of-program assessment may serve as the state required portfolio.

Students who hold a standard classroom teaching certificate will need to pass the Oklahoma Subject Area Test (OSAT) for school library media. Students who do not hold a standard classroom teaching certificate will need to pass the OSAT as well as one or two additional tests and should consult the State Department of Education about the required examination.
